Databases & Storage: MongoDB, PostgreSQL, MySQL, SQLite, Oracle

Development Tools & DevOps: Git, GitHub, GitHub Actions, VS Code, NPM, Nodemon, Vite, Webpack, ESLint, Jest, Cypress, Postman, Swagger, Docker, AWS, Google Cloud, Azure, Vercel, Heroku, Figma, Framer, Jira, Trello, Slack, Notion

Professional Experience

eduArabia

eduArabia is an education development firm based in Amman and Riyadh, specializing in research-backed learning practices and educational technology. It aims to improve institutional outcomes and learner success across the Arab world.

Front End Developer

Fulltime

Sep 2023 - Present

Contributed to both new and existing front-end projects by developing features, fixing bugs, and improving performance. Played a key role in setting up the structure and base code for a new project, and built most of its shared UI components to ensure scalability and maintainability. Worked collaboratively with the team to implement enhancements, refactor legacy code, and deliver reliable, modular solutions using React, Vite, Tailwind CSS, Redux, and REST APIs.

Technologies used: REST API, Pusher, Webpack, VS Code, Vite, Tailwind CSS, Sass, Redux, Slack, React, NPM, Markdown, JSON, jQuery, Jira, JavaScript, PHP, HTML5, GitHub, Git, PostCSS, Astro, CSS3

Polaris Technology

Polaris Technology Co. is an IT solutions provider in Jordan, offering services in infrastructure, security, consultancy, and enterprise integration across sectors including telecom, finance, and government.

◯ Associate Front End Developer

Fulltime

Feb 2023 - Sep 2023

Contributed to the development of responsive front-end interfaces aligned with project specifications and UX designs. Customized and developed Mendix widgets using React and React Native, enhancing functionality and integration within low-code platforms. Collaborated in Agile sprints to deliver features on time, maintain code quality, and support iterative improvements. Utilized technologies such as React, JavaScript, Bootstrap, and Webpack to build scalable UI components and ensure consistent visual standards across applications.

Technologies used: React, CSS3, HTML5, Webpack, VS Code, Bootstrap, Git, GitHub, JavaScript, jQuery, NPM

Education

Software Development - JavaScript (Bootcamp)   Jun 2022 - Dec 2022

Luminus Technical University College

Full Stack Development

Bachelor of Science in Computer Engineering (Degree - Bachelor's)   Jun 2016 - Sep 2021

AL-balqa'a Applied University

Computer Engineering
